

Good morning

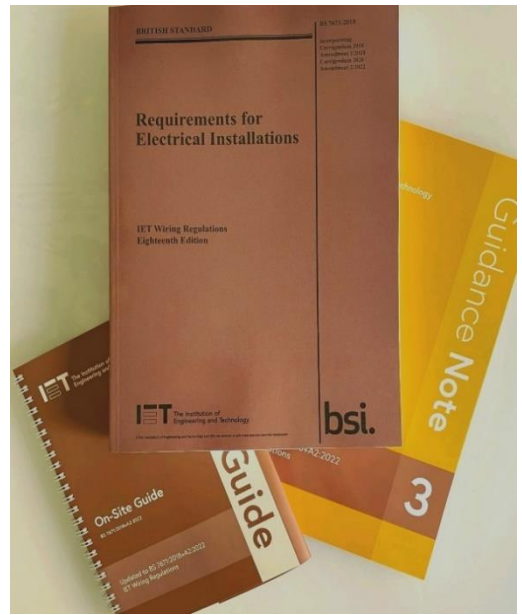

This week has been a busy week with various training, its great to see more and more requests for onsite delivery of our various courses and how our clients are delegates are starting to come to terms with the new “normal”.

We are very fortunate at Stoneleigh Park to enjoy such beautiful grounds and this week we get to enjoy these beautiful bluebells.

Please feel free to contact the team and arrange a visit of our facilities and enjoy a coffee or even a walking meeting in these amazing grounds.

Its exciting to see our updated 18th Edition Electrical Installation Course with amendment 2 starting on Monday.

The team are working hard on our new website which is improving each week. www.pragmatic-consulting.co.uk

We had a few visits from Energy and Utility Skills to look at some operational improvements and strategic business growth and market opportunities. Photo is Director of Strategic Accounts for Energy and Utility Skills Stephen Barrett our MD Jo Niblett and next to our EUSR Approval wall is nearly full as you can see.

QUIZ: Which Substation is this?

Below are the courses we currently have scheduled, however Pragmatic can also provide bespoke training, so if you have any specific requirements, please email us at training@pragmatic-consulting.co.uk or call us on 01926 674340 for a tailor-made quote.

Reminder: EUSR National Water Hygiene (Blue Card) Mandatory for clean water / potable water sites

These are delivered via an online E-learning platform. The main benefit is that they can be done at a time that suits, it takes approx. 2-3 hours to complete, and you have 28 days to complete it.

Cost is £122 + VAT per delegate and this includes EUSR registration and card.

Reminder: This course can be booked every day! We can also deliver online via virtual classrooms or face to face and are always happy to come to your site and deliver to groups of up to 12 delegates.

CABWI Classroom Courses

We will add more courses as per Requests and we are also able to offer face to face courses or online courses just for your teams if required. Please just contact us with your enquiries and we will do our best to help.

NEWSFLASH – GL6 Update extended until 15th June 2022 (as no one was advised of 18th March 2022 deadline)

If you or your staff hold the old SCO1 and 2, SCO4 or SCO5 Authorisations you need to book the GL6 Update this is a 1-hour video eLearning and needs to be completed before the 15th June otherwise you will need to do the new courses in FULL. This is eLearning and simple to book with the office.

SGN Update

To stay on the SCO Register he must have passed the new SCO Core, SCO PtW and SCO FoA renewal modules on or before 01/04/22 or do the new SCO Core, SCO PtW and SCO FoA they are not accepting SCO 1 and 2 with GL/6 Update.

Converting current SCO registrations to the new SCO Scheme

PROGRAMME STRUCTURE BACKGROUND	ENERGY & UTILITY SKILLS
OLD SCO SCHEME	NEW SCO SCHEME
SCO 1 & 2	SCO Core SCO FoA SCO PtW
SCO 4	SCO NRO
SCO 5	SCO RO

- Holding an in-date SCO 1 and 2 means an individual is eligible for SCO Renewal modules, module 1: SCO Core, module 2: PtW and module 5: FoA
- Holding an in-date SCO 4 means an individual is eligible for SCO Renewal module 3: NRO
- Holding an in-date SCO 5 means an individual is eligible for SCO Renewal module 4: RO

Note: where the existing registration is not in date, or if the individual wants to add an endorsement, then they will have to take the Initial programme

EUSR Courses (Online Classroom)

Please note for virtual classroom courses each delegate needs a laptop or desktop computer (this course cannot be done on a tablet or mobile phone) they also need a quiet space, stable internet, webcam, and speaker.

We are also more than happy to come to you or run online or COVID 19 safe face to face courses on dates that suit if you have 6 or more delegates.

SHEA EUSR registration gives confidence there is the required knowledge and understanding to work safely in an operational environment. The training embeds best practice in health and safety and environmental awareness and supports the HSE's essential principles for good health and safety performance.

The EUSR SHEA schemes are developed in collaboration with employers and key stakeholders from across the Industries in our sector, so the content is relevant – all helping to improve the safety of the workforce and reduce costs associated with injury, illness, or accidents.

The industry specific content, sometimes called 'contextualisation', makes our SHEA schemes 100% relatable – it's easier to understand the relevance to the day job – again supporting a safer workplace.

EUSR are a recognised third-party awarding organisation with CITB, and our SHEA training and assessments are mapped to the standards for the CITB Level 1 Award in Health and Safety in a Construction Environment – meaning **all SHEA schemes have CSCS Partner Card status.**
